

SUDANA SILVER

## JEWELS BY SUDANA SILVER BALI GALLERY

Through high creativity and new innovation, Sudana Silver produces a high quality jewelry or accessories product, behind its extraordinary product there is a process that is quite difficult to produce a work of art. Department of Industry and Trade of Denpasar City and eventually expanded his business by participating in local and international exhibitions.

### TATAH TECHNIQUE

The tatah technique is Sudana Silver's mainstay technique in carving an ornamental motif by tapping it with a hammer so that the motif looks embossed.

### JAWANAN TECHNIQUE

The jawanan technique is a technique that relies on precision in arranging a small motif in jewelry, after which it will go through a refinement process so that the jewelry looks brighter and cleaner.
