Kotagede Series

Our previous product "Tahtijana" takes inspiration from Kotagede's spatial concept, "Catur Gatra Tunggal". This concept embraces four important elements from Kotagede; Kraton, Alun-alun, Mosque, and Market. Kraton symbolizes the culture, Alun-alun symbolizes the social, Mosque symbolizes the religion, and Market symbolizes the economy. Catur Gatra Tunggal also believes those four elements influence one another in a good way.

Tahtijana Series is our newest set of accessories made from combining traditional and modern techniques of crafts-making.

Inspired by Indonesian Wayang Kulit (Javanese Shadow Puppet), the same material commonly used for the puppets was innovated to be the base material for Tahtijana. The traditional aspect comes from the processing of the parchment leather called Tatah Sungging technique.

In addition to that, bead stitching was added to bring out the beauty and create a fashionable, gorgeous art piece.
