**JAVA HALU IS A BUSINESS THAT CARES ABOUT
CLIMATE CHANGE AND WASTE**

Sustainable Coffee Farming

Coffee Briquete

Briquette coffee is a solid fuel that is environmentally friendly and is a source of energy derived from biomass such as husk coffee and cascara, with the use of this coffee waste as raw material for coffee briquettes is an effort to sustainability of industrial coffee because no coffee waste is wasted into the environment

Coffee Fire Starter

Coffee fire starter is a value-added product of coffee waste in the form of coffee husk which is used as a lighter, used to suppress the accumulation of waste in coffee processing, bringing new profits from coffee side processing

ZERO WASTE PRODUCTS

Java Halu Coffee has succeeded in marking zero waste products, including coffee fire starter briquettes, and magoffee (magot coffee). These findings are important and valuable for us, and we cannot wait to share them to the world.

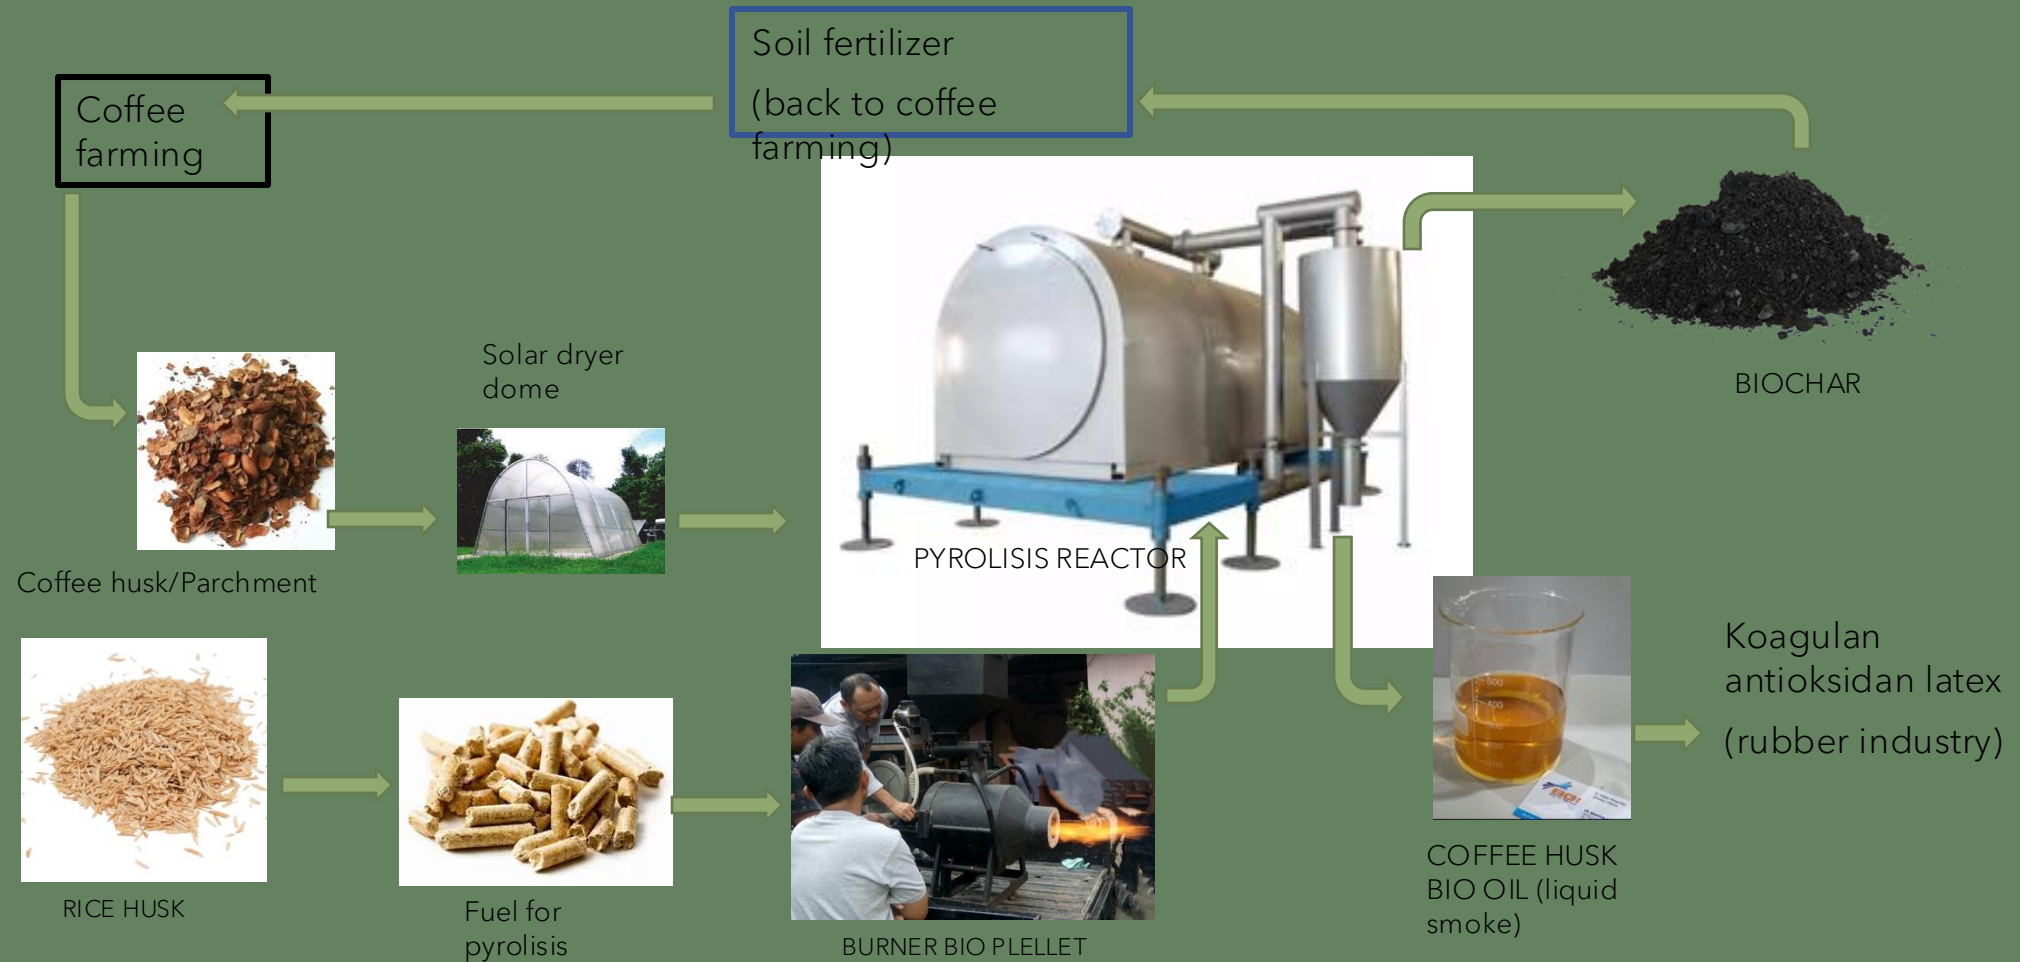

Magoffee

is a product of processing coffee skin waste by utilizing black soldier fly (BSF) larvae media, BSF is one type of fly that eats organic waste such as coffee waste, BSF (Magot) larvae can change organic waste, produce a protein source for more sustainable animal feed, the result of biocon
